- Work that is done on time and fits your schedule.
- The very best materials available.
- A commitment to excellence and beauty.
- Art that will inspire you.

But don't just take our word for it. Here's what others have to say about our work and company...

"Mark Mittlesteadt from 2nd Nature Creations updated our signage this summer at Coral Lanes. One word for the artwork and the response to it. WOW!!! All summer wherever I went, whether to the Wausau Balloon Rally or the 400 Block, people would stop me and tell me how much they like the new paint job. It is eye catching and extremely well done. Mark uses products that are eco-friendly and so is he!! I highly recommend Mark and 2nd Nature Creations to my customers and friends for all their graphic artwork projects."

~Penny Drake Co-Owner Coral Lanes Rothschild

"Dear Mark, We at the Marion Public Library wanted to write and express how wonderful the experience of having you paint our murals was. It was genius to have you do the actual sketching and painting during hours that the library was open. Our Patrons loved being able to stop in and check the progress and ask you questions, and your thoughtful, informative answers made everyone feel that they were part of the process.

We've had such a positive response to the finished murals that we can't wait to raise enough money to complete the south wall murals too. Children and adults alike are bringing friends and relatives in to show off our library and point out the great work you've done. We are now a destination when people are visiting from out of town, and pointing out the buildings in the Historic Mural has prompted many interesting conversations. It's fun to watch reactions of people who haven't been in before and see how surprised they are to see how interesting our library is.

The Children's Classics Mural is so beautiful and has raised new interest in the stories represented there, which as librarians, we love to see. All in all we are very pleased with the great addition both the Murals have made to our library. Your work will be enjoyed by many for years to come."

~Thank you, Marion Library Staff

"Mark's work surpassed our expectations. We had a concept in mind and he quickly came up with a plan to implement it. We had a relatively short timeline to work with but Mark worked day and night to get the work done easily meeting our deadline. We will definitely be asking Mark to add more of his work to our store!"

~ Lori Schubring, owner Wild Bird's Unlimited store

"What Mark created for us would be inadequately identified as his "work" It truly is the blending of his talent and passion that allows him to not only capture a moment, but also to draw one into that moment to enjoy its essence. Mark was able to complete our project as scheduled, working under difficult conditions, keeping a great attitude, and doing whatever it took to create our murals. People daily enjoy the different atmospheres and visual pleasures created by each of Mark's murals."

~ Andrew and Rose Boron, owners Acorn Hill Senior Living Community

"Thank you for making Lucky Raven the revolutionary tattoo experience that we envisioned! Mark was able to complete our projects so quickly, it completely surpassed anything we expected! Both Mark and Dawn helped in so many ways throughout the opening of our business we can't begin to thank them enough. Mark always had a great attitude which helped keep the flow of business and ideas going during the trying time of opening a new business, so thank you from all of us. Also a special thank you for your donation of a print for our grand opening raffle! We are sure the winner will love it! Our customers really enjoy and always comment how incredible, and how much they love, the murals & dioramas created by Mark."

~ Thanks from all of us at Lucky Raven: Nicole, Dave, & Brian
